2. Introduction

The objective of this document is to list changes, modifications, decommissions, bug corrections, which are part of this minor release **R2022.1.1** of **26th June 2022**.

It covers:

- New or modified functionalities to eHealth web services and web applications
- New utilities, libraries, connectors to facilitate the call to the eHealth web services (as for the end to end encryption library)
- Technical specifications and requirements (as for the network specification, system settings, minimum and compatible browser versions, patch levels, ...)
- New global solutions based on the combination of several eHealth components;
- New Authentic Sources, semantics and syntactic standards
- New Value Added Services that should be released by partners with the official partner's production date (POC) and the eHealth production date
- New procedures to be applied

If applicable, this document specifies:

- The major deliverables (components, cookbooks, forms, user guides)
- The backward compatibility (which version remains valid)
- Point of contact

3. Main new functionalities and minor changes

3.1 Consult RN

- Undeploy old services:
 - Identify Person
 - Phonetic Search
 - Person history
 - Manage inscription
 - Mutation Sender v1, v2
 - Manage Person

3.2 RN Consult

- A new version of the SsinHistory service will be deployed in order to use the new service of the Crossroads Bank for Social Security (BCSS). This new version does not involve any interface changes and will be transparent for users.

3.3 Iris care Webservice Sync and Async MDA and Async facturation

- The member data service (= Member DATA = MDA) allows any institution or authorized care provider to consult the information (insurability and derived rights) of the care recipient necessary to carry out invoicing or to deliver services/products in a way correct. This synchronous service is a copy of the MyCareNet service for the new Brussels platform, IRISACARENET within the framework of regionalisation. This service will be under the responsibility of the CIB, which is the Collège Intermutualiste Bruxellois
