

eHealth platform communication – 18/08/2026

Owner: Service management

Replacement of the HARICA Root CA for SSL Certificates *.ehealth.fgov.be

Nederlandse tekst onderaan

Bonjour,

Cette communication concerne tous les utilisateurs d'un service de eHealth dans le domaine *.ehealth.fgov.be

1.Quelles sont les actions attendues de votre part :

eHealth installe un nouveau certificat TLS HTTPS. Le nouveau certificat utilisera la Root CA HariCA. Nous vous demandons de vérifier (et, si nécessaire, d'adapter) la configuration afin que cette Root CA soit approuvée par vos applications.

Si vous utilisez les métadonnées en ligne suivantes pour valider la chaîne de certificats et la récupérer périodiquement, vous n'avez rien à faire. La nouvelle autorité de certification racine sera ajoutée à ces métadonnées en temps opportun.

- ACC : <https://tsl-acpt.ehealth.fgov.be/tsl-ehpbe-transport.xml>
- PROD: <https://tsl.ehealth.fgov.be/tsl-ehpbe-transport.xml>

2.Quand devez-vous exécuter ces actions ?

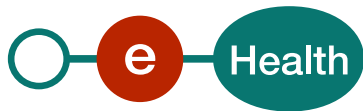

Vous devez tester ce certificat dans l'environnement d'acceptation à partir du **02/09/2026**.

Le certificat en production sera actif à partir du **13/10/2026**.

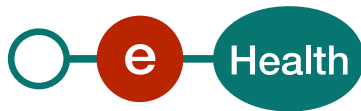

Nous vous demandons d'installer **HariCa 2015** ainsi que **HariCa 2021**

Vous trouverez la Root CA HariCa 2015 ici: repo.harica.gr/certs/HaricaRootCA2015.pem

-----END CERTIFICATE-----

Si vous n'effectuez pas ces démarches à temps, il est possible que vous ne puissiez plus établir de connexions sécurisées (https) à partir des dates précitées car votre système n'a pas encore confiance aux nouveaux certificats.

3.Action nécessaire pour les utilisateurs finaux?

Aucune action spécifique n'est nécessaire pour les utilisateurs finaux

Si vous avez encore des questions, vous pouvez contacter le "contact center" via support@ehealth.fgov.be ou au numéro 02/788.51.55

.....

Deze communicatie is bestemd voor alle gebruikers van een eHealth-dienst in het domein *.ehealth.fgov.be

1. Welke acties worden er van u verwacht?

eHealth installeert een nieuw HTTPS TLS certificaat. Het nieuwe certificaat zal gebruik maken van de Root CA HariCA. We vragen om te verifiëren (en indien nodig, aan te passen) dat deze Root CA door uw toepassingen vertrouwd wordt.

Indien u gebruik maakt van volgende online metadata om de certificate chain te valideren en deze periodisch ophaalt, hoeft u niets te doen. De nieuwe root CA zal tijdig aan deze metadata toegevoegd worden.

- ACC: <https://tsl-acpt.ehealth.fgov.be/tsl-ehpbe-transport.xml>
- PROD: <https://tsl.ehealth.fgov.be/tsl-ehpbe-transport.xml>

2.Wanneer moet u deze acties uitvoeren?

U dient dit certificaat in acceptatie te testen vanaf **02/09/2026**

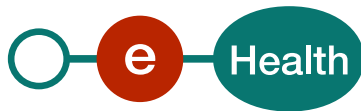

Het certificaat in productie wordt actief vanaf **13/10/2026**

We vragen u om zowel HariCa 2015 als HariCa 2021 te installeren

U vindt het HariCa 2015 Root CA hier terug: <repo.harica.gr/certs/HaricaRootCA2015.pem>
