# 1. Document Revision History

Version	Date	Author	Description of changes / remarks
1.0	12/05/2026	eHealth platform	Minor Release R202261.1 (23/06/2026)

## 2. Introduction

The objective of this document is to list changes, modifications, decommissions, bug corrections, which are part of this minor release **R20261.1 beginning the 16/06/2026 and ending the 23/06/2026** following canary release method.(\*)

(\*) more explication of this method via those links:

FR: <https://www.ehealth.fgov.be/ehealthplatform/fr/service-releases-management>

NL: <https://www.ehealth.fgov.be/ehealthplatform/nl/service-releases-management>

It covers:

- New or modified functionalities to eHealth web services and web applications
- New utilities, libraries, connectors to facilitate the call to the eHealth web services (as for the end to end encryption library)
- Technical specifications and requirements (as for the network specification, system settings, minimum and compatible browser versions, patch levels, ...)
- New global solutions based on the combination of several eHealth components
- New Authentic Sources, semantics and syntactic standards
- New Value Added Services that should be released by partners with the official partner's production date (POC) and the eHealth production date
- New procedures to be applied

If applicable, this document specifies:

- The major deliverables (components, cookbooks, forms, user guides)
- The backward compatibility (which version remains valid)
- Point of contact

For more details: see section 3 of this document and at

FR: <https://www.ehealth.fgov.be/ehealthplatform/fr/service-releases-management>

NL: <https://www.ehealth.fgov.be/ehealthplatform/nl/service-releases-management>

## 3. Main new functionalities and minor changes

### 3.1 RNConsult BIS Creation

When creating a second number, the BCSS will add a check to prevent the possibility of entering Belgian nationality as a nationality

### 3.2 Mult-eMediatt iteration 2

As part of the Mult-eMediatt project, the Directory is being adapted to add granularity to the dataset used in the certificate, based on recipient type.

Adaptation of the DAAS business rules within the framework of iteration 2 Mult-eMediatt

### 3.3 Daas-add Jobseeker consultation

The DAAS eHealth service is extended with the possibility to consult the BCSS service Jobseeker

### 3.4 Prescription Search Support FHIR API

Extension of the Prescription Search Support FHIR API with new endpoints.

It offers new endpoints for giving a consent, submitting the user feedback if a recommendation is followed or not, and retrieving a PSS

### 3.5 Software Register

- improve look of the pages and optimize space
- standarization of the different pages
- simplify and improve pages navigation

### 3.6 New profession Nursing Care assistant

New professions are implemented in the IAM concepts and parameters, to allow access to eHealth services, and other partners applications / services.

- NURSING\_CARE\_ASSISTANT

The professions of the "nursing art" are now derived into five categories:

1. AS/ZV: nursing assistant (level 4 diploma, qualifying), secondary school
2. AESI/BV: nursing care assistant (level 5), higher social promotion
3. IRSG/VVAZ/VVAZ: general care nurse (level 6), Higher Education (Haute Ecole)
4. IPA/VS: advanced practice nurse (level 7), Master
5. ICC: Clinical Nurse Researcher (level 8), Doctorate

Current NURSE Concept should remain unchanged fo the time bein
