# 1 Document management

## 1.1 Document history

Version	Date	Author	Description of changes / remarks
1.0	24/06/2013	eHealth	Major Release R2013.3(25/07/2013)

## 2 Introduction

The objective of this document is to list changes, modifications, decommissions, bug corrections that are part of this major release **R2013.3** of **25th July 2013**.

This covers :

- New or modified functionalities to eHealth webservices and webapplications
- New utilities, libraries, connectors to facilitate the call to the eHealth webservices (as for the end to end encryption library)
- Technical specifications and requirements (as for the network specification, system settings, minimum and compatible browser versions, patch levels, ...)
- New global solutions based on the combination of several eHealth components
- New Authentic sources, semantics and syntactic standards
- New Value Added Services that should be released by partners with the official partner's production date (POC) and the eHealth production date
- New procedures to be applied

If applicable, this document specifies:

- The major deliverables (components, cookbooks, forms and user guides)
- The backward compatibility (which version remains valid or not)
- Point of contact

More detail can be found in section 4 of this document and on <https://www.ehealth.fgov.be/nl/home> and <https://www.ehealth.fgov.be/fr>
